SELECTED PROOF

- **Off-grid production van.** Built in Minnesota. Empty shell to working field unit: 400W solar, battery bank, inverters, load sizing, wiring and fusing. Ran for years in rural Puerto Rico heat and humidity with no grid.
 - **Aerosol.** With zero prior experience, I took an aerosol product from an idea to nationwide sales. I learned every step as I went.
 - **Southwest Ground Operations, Phoenix, 2015-2018.** Towing 737s, bags, cargo, hazmat, lavatory, gate turns. Logistics under documented handling rules.
 - **Southwest Flight Attendant, 2018-2021.** Cabin, passengers, emergency procedures, medical response.
 - I keep up with new tools so I don't fall behind.
 - **Tesla Full Self-Driving.** 25,456 of 25,717 miles as of August 2026, 98.9%, longest run 1,340.
